INVESTMENT OBJECTIVE

To provide long-term capital growth through investment in a diversified portfolio of private equity funds, infrastructure funds, opportunistic property funds, absolute return funds and other investments consistent with the fund's investment approach.

To outperform the Bloomberg Ausbond Bank Bill Index over rolling five-to-seven-year periods by 3% per annum.

STRATEGY

Build a diversified portfolio that includes infrastructure, private equity, opportunistic property, and absolute return (hedge fund) investments.

Subject our investment opportunities to detailed research, screening them for expected return, risk, downside protection properties and portfolio fit.

Select the highest ranked investment managers that have passed our Quality Filters.

MARKET OPPORTUNITY

The opportunity set remains particularly strong for providers of private equity and debt capital.

The current portfolio will aim to take advantage of the short-term market dislocation in Europe and the USA, particularly, in areas where we believe the downside is protected and the potential returns are commensurate with the risks.

We plan to take advantage of the broader market dislocation resulting from volatility and continued uncertainty across the globe, applying the same principles of downside protection.

We continue to see a broader and deeper opportunity set in Europe and North America, particularly, in areas where we believe the downside is protected and the potential returns are commensurate with the risks.

We plan to take advantage of the broader market dislocation resulting from volatility and continued uncertainty across the globe, which have risen as a result of regulatory / legislative change, structural and valuation changes or are thematic in nature.

1) Fund commenced in March 2008 with performance reporting from 30 June 2008 once the fund had made an investment. The fund was opened to external investors in June 2009. 2) Negative annual returns expected in 4 to less than 6 years over any 20 year period. 3) Total returns have been calculated using exit prices after taking into account Perpetual's ongoing fees and assuming reinvestment of distributions (where applicable). No allowance has been made for contribution fees, withdrawal fees or taxation. 4) Top 10 externally managed exposures. 5) The difference between 'Cash (AUD)' and 'Cash & Currency' (as per the sector asset allocation pie chart) represents offshore currencies held for transactional purposes. 6) The leverage ratio is provided as required by ASIC Regulatory Guide 240. Please note that this is look-through leverage of the Fund based on the leverage of the underlying absolute return managers. The Fund itself will not borrow or apply gearing in the ordinary course of business. 7) Market type data is estimation only, provided by the Perpetual Private research team.
